Reconsidering life & death - before, during and after incarnation

An inquiry with Pim van Lommel and Jeff Olsen

at the Veerhuis, Varik (near Tiel)
on Sunday, April 9th 2017
from 13.00-17.00 hrs

Jeff Olsen was at the wheel on the drive home with his young family when they met with an accident. His wife and baby-son died. His seven-year old son, Spencer, came away almost unscathed and Jeff spent almost a year in revalidation. The intense contact with his deceased wife gave him heart not to give up. Over time another reality started to come alive for him than he was used to – a reality beyond duality in which joy is absolute, love unconditional.

As a cardiologist Pim van Lommel saw people die on the operating table, and come back into their bodies. Curious as to their ‘near death experiences’ he conducted the largest scientific research into this phenomenon in the world.

[Anne-Marie Voorhoeve](#) and [Lisette Schuitemaker](#) met Jeff through different channels and invited him to come and share his story and felt experience here in The Netherlands. They invited Pim to underpin Jeff's experiences with his findings.

With their input we will inquire into the question **'What does the awareness that life is one interdependent existence mean to each of us, and to us as part of humanity in this turbulent time?'**

Initiator of venue [Het Veerhuis](#) (Ferry house) in Varik, [Henry Mentink](#) is dedicated to co-create and manifest the new economy.

Please let us know if you can join us. We are inviting a small group of interested people; in total around 25 guests. To cover basic costs and contribute to arranging these events (including coffee, tea, drinks) there will be a jar at the location for your gift (suggested pricings € 10-50-150).

RSVP before March 30th: info@veerhuis.nl
